

MEASUREMENT SHEET - OLD MAINSAIL

La Voilerie ©2025-ag111025

Boat model	:		Length	:	
Marina	:		Weight	:	

To correctly fill out the measurement sheet, follow the numbering order (1 to 3)

1 Measurements are taken with the sail lying on the ground, stretched flat. Measurements are taken "from sail tip to sail tip, all inclusive," with slight tension applied to remove creases. Do not take into account any rounded edges caused by cutting the sail. The tape measure can draw a straight line.

2 Details of the slides

Reference

R

width

L

mm

La forme

☐ flat
☐ round
☐ half-round

H

body width

T

mm

3 Observations

"A" is the measure of the luff
"B" is the measure of the border
"C" is the measure of the leech
"F" is the width from quarter luff to quarter leech
"G" is the width from mid-luff to mid-leech
